- **(HAZARDOUS ITEMS LINK)**
- J&J Sanitation does not collect any hazardous waste materials but we proudly support the State of Nebraska's efforts to properly dispose of any materials that pose a threat to the environment.
-
- Federal and state laws require that businesses and industries properly dispose of hazardous waste, but private consumers aren't always aware which items are safe to dispose of, which are toxic, or where to take them.
-
- For more information about hazardous waste disposal, visit Keep Nebraska Beautiful (http://www.knb.org/house_hazard.html) or call our Customer Service with any questions in regards to your trash service.
-
